Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program:

The purposes of this program are to

- (1) help address State-identified needs for highly qualified personnel in special education, related services, early intervention, and regular education to work with children, including infants and toddlers, with disabilities; and
- (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research and experience, to be successful in serving those children.

Priorities:

In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority:

For FY 2012 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Early Childhood Personnel Center (84.325B).

Background:

The majority of professionals who make up the current early childhood workforce are not adequately prepared to provide effective services and evidence-based interventions that lead to improved developmental and learning outcomes for infants, toddlers, and preschool children with disabilities and their families (National Governor's Association, 2010). In a survey of IDEA Part C and Part B, Section 619 coordinators, more than half of the States reporting indicated that personnel currently employed in early intervention and preschool programs were not properly trained to work with infants, toddlers, and preschool children with disabilities and their families (Bruder, 2010). The Division for Early Childhood of the Council for Exceptional Children (DEC) and the National Association for the Education of Young Children (NAEYC) each has a

set of early childhood personnel standards¹ for personnel working with infants, toddlers, and preschool children and their families. The majority of States' personnel standards, however, do not align to these national standards (Stayton et al., 2009).

To address the needs of States in this critical area, the Department plans to support, through this priority, the establishment and operation of an Early Childhood Personnel Center to improve professional development for personnel working with infants, toddlers, and preschool children with disabilities and their families, including those working in IDEA Part C and Part B preschool programs. This Center would support States in developing and implementing an integrated early childhood professional development system so that all personnel providing services to infants, toddlers, and preschool children with disabilities and their families can effectively serve those populations.

"Integrated early childhood professional development system" refers to a comprehensive system of preparation and ongoing development and support for early childhood personnel. Components of a statewide integrated early childhood professional development system include licensing and certification requirements, personnel standards and competencies,² preservice preparation, inservice training, and career pathways. Integrated systems cross all early childhood sectors (e.g., IDEA Part C, IDEA Part B preschool, Head Start, child care, State-funded Pre-K) (LeMoine, 2008; National Professional Development Center on Inclusion (NPDCI), 2010).

The Department's Race to the Top—Early Learning Challenge (RTT-ELC) program recognizes the importance of having an integrated early childhood professional development system to support the development and learning of all young children. Thus, RTT-ELC encourages States to work closely with institutions of higher education (IHEs) to develop a common, statewide workforce knowledge and competency framework³ for all early childhood educators.⁴ RTT-ELC

¹ For the purpose of this priority, "personnel standards" refers to a set of expectations or benchmarks conveyed as broad domains with associated core knowledge and skills organized into levels of expertise. Broad domains include promoting child development and learning, and core knowledge and skills involve knowing evidence-based practices validated for specific characteristics of learners and settings (National Professional Development Center on Inclusion (NPDCI), 2011).

² For the purpose of this priority, "competencies" refers to the knowledge, skills, and dispositions providers must master to be effective (NPDCI, 2011).

³ For the purpose of this priority, "workforce knowledge and competency framework" means a set of expectations that describes what early childhood educators (including those working with children with disabilities and English learners) should know and be able to do. The Workforce Knowledge and Competency Framework, at a minimum, (a) is evidence based; (b) incorporates knowledge and application of the State's early learning and development standards, the comprehensive assessment systems, child development, health, and culturally and linguistically appropriate strategies for working with families; (c) includes knowledge of early mathematics and literacy development and

also encourages States to improve the quality of these personnel by supporting professional development, career advancement opportunities, differentiated compensation, and incentives to improve their knowledge, skills, and abilities.

Notwithstanding the work currently being done under the RTT-ELC program, and while early childhood programs within States are moving toward more integrated early childhood professional development systems, States need assistance to develop, implement, and improve personnel systems that are focused on providing services to infants, toddlers and preschool children with disabilities and their families. Across States, there are wide variations in the quality of implementation of the components of these systems, the alignment of these components to create a comprehensive professional development system, and the integration of IDEA Part C and IDEA Part B preschool professional development systems with other early childhood professional development systems (NPDCI, 2011). Thus, States, including those funded under RTT-ELC, specifically need assistance in: aligning their personnel standards to national professional organization standards for providing services to infants, toddlers, and preschool children with disabilities and their families; ensuring that those standards are aligned or integrated with State standards for early childhood personnel of all children, linking those standards to applicable State competencies and certification or licensure requirements to ensure that all early childhood personnel are qualified to work with infants, toddlers, and preschool children, including those with disabilities and their families; developing collaborative relationships with IHEs to support alignment between preservice and inservice training and the increased use of evidence-based professional development practices to improve services for infants, toddlers, and preschool children with disabilities; and ensuring that States include personnel serving infants, toddlers, and preschool children with disabilities and their families in their career pathway initiatives (e.g., workforce registries, career ladders, and incentive programs). The proposed Early Childhood Personnel Center would provide technical assistance (TA) to address State needs in these areas.

effective instructional practices to support mathematics and literacy development in young children; (d) incorporates effective use of data to guide instruction and program improvement; (e) includes effective behavior management strategies that promote positive social emotional development and reduce challenging behaviors; and (f) incorporates feedback from experts at the State's postsecondary institutions and other early learning and development experts and early childhood educators.

⁴ As defined in RTT-ELC, "early childhood educator" means any professional working in an early learning and development program, including but not limited to, center-based and family child care providers; infant and toddler specialists; early intervention specialists and early childhood special educators; home visitors; related services providers; administrators such as directors, supervisors, and other early learning and development leaders; Head Start teachers; Early Head Start teachers; preschool and other teachers; teacher assistants; family service staff; and health coordinators.

Priority:

The purpose of this priority is to fund a cooperative agreement to support the establishment and operation of an Early Childhood Personnel Center (Center) to: (1) serve as a national resource on personnel standards, competencies, and recommended practices for professional development for personnel providing services to infants, toddlers, and preschool children with disabilities and their families; (2) assist States in aligning their personnel standards to national professional organization standards for all personnel providing services to infants, toddlers, and preschool children with disabilities and their families, aligning or integrating those standards with standards for early childhood personnel of all children, and linking those standards to State competencies and certification or licensure requirements; (3) assist State agencies and IHEs in developing partnerships with each other to support alignment between preservice and inservice training for all personnel providing services to infants, toddlers and preschool children with disabilities and their families; and (4) in alignment with the vision outlined in RTT-ELC, assist States in developing integrated early childhood professional development systems to ensure that IDEA Part C and Part B preschool programs and personnel in each State are included within the State's professional development initiatives and that all early childhood personnel have the competencies to effectively serve infants, toddlers, and preschool children with disabilities and their families.

To be considered for funding under this absolute priority, applicants must meet the application requirements contained in this priority. Any project funded under this absolute priority also must meet the programmatic and administrative requirements specified in the priority.

Application Requirements.

An applicant must include in its application—

- (a) A logic model that depicts, at a minimum, the goals, activities, outputs, and outcomes of the proposed project. A logic model communicates how a project will achieve its outcomes and provides a framework for both the formative and summative evaluations of the project;

Note: The following Web sites provide more information on logic models:

www.researchutilization.org/matrix/logicmodel_resource3c.html and
www.tadnet.org/model_and_performance.

- (b) A plan to implement the activities described in the Project Activities section of this priority;

- (c) A plan, linked to the proposed project's logic model, for a formative evaluation of the proposed project's activities that is linked to the proposed project's logic model. The plan must describe how the formative evaluation will use clear performance objectives to ensure continuous improvement in the operation of the proposed project, including objective measures of progress in implementing the project and ensuring the quality of products and services. This plan must include how the Center will collect data on all components of the Center's activities;
 - (d) A budget for a summative evaluation to be conducted by an independent third party, who must be approved by OSEP;
 - (e) A budget that dedicates \$50,000 in year one of the project to cover the costs of carrying out the task described in paragraph (b) of the Knowledge Development Activities section of this priority.
 - (f) A budget for attendance at the following:
 - (1) A two-day kick-off meeting to be held in Washington, DC, after receipt of the award, and an annual planning meeting held in Washington, DC, with the OSEP Project Officer during each subsequent year of the project period.
- Note: Within 30 days of receipt of the award, a post-award teleconference must be held between the OSEP Project Officer and the grantee's Project Director or other authorized representative;
- (2) A three-day Project Directors' Conference in Washington, DC, during each year of the project period;
 - (3) A three-day Leveraging Resources conference in Washington, DC, during each year of the project period;
 - (4) Two two-day trips annually to attend Department briefings, Department-sponsored conferences, and other meetings, as requested by OSEP; and
 - (g) A line item in the proposed budget for an annual set-aside of five percent of the grant amount to support emerging needs that are consistent with the proposed project's activities, as those needs are identified in consultation with OSEP.

Note: With approval from the OSEP Project Officer, the Center must reallocate any remaining funds from this annual set-aside no later than the end of the third quarter of each budget period.

Project Activities.

To meet the requirements of this priority, the Center, at a minimum, must conduct the following activities:

Knowledge Development Activities.

- (a) In the first six months of the project period, identify and document the current status of each State in regards to:
- (1) The State's IDEA Part C and Part B preschool personnel standards and competencies, as well as certification or licensure requirements;
 - (2) How IDEA Part C and Part B preschool programs in the State and personnel working in the programs are integrated into the State's early childhood professional development systems and initiatives; and
 - (3) The State's efforts to develop personnel standards and competencies for serving infants, toddlers, and preschool children with disabilities for personnel working in early childhood programs other than IDEA Part C and Part B preschool programs (e.g., Early Head Start, Head Start, Child Care).
- (b) In the first year of the project period, collaborate with the DEC and the Early Childhood Technical Assistance Center, if funded by OSEP, to update the set of empirically supported recommendations for professional development practices for personnel providing services to infants, toddlers, and preschool children with disabilities and their families in both preservice and inservice contexts. These recommendations must be made available at no cost to consumers as part of the Technical Assistance and Dissemination Activities described below.
- (c) In the first year of the project period, bring together national professional organizations to facilitate the development of a set of recommended unified personnel standards that could

be used across States and IHEs preparing personnel to serve infants, toddlers, and preschool children with disabilities and their families.

- (d) In the first year of the project period, conduct a review of the literature on components of successful:
- (1) Models of State agency and IHE partnerships that have led to the alignment of State personnel standards and competencies and the curricula at IHEs; and the alignment of preservice and inservice training.
- (2) Models of coordination at a systems level to promote a more integrated early childhood professional development system for personnel working with infants, toddlers, and preschool children with disabilities and their families.

The standards for the literature review must be consistent with those used by the What Works Clearinghouse and the definitions of “strong evidence” and “moderate evidence” contained in the notice of final supplemental priorities and definitions for discretionary grants programs, published in the Federal Register on December 15, 2010 (75 FR 78486), and corrected on May 12, 2011 (76 FR 27637).

Technical Assistance and Dissemination Activities.

- (a) Provide a continuum of TA and dissemination activities to improve and integrate early childhood professional development systems with one another so that early childhood personnel have the competencies to support the learning and development of infants, toddlers, and preschool children with disabilities and their families and ensure that TA activities are coordinated with, and not duplicative of, State activities carried out under the RTT-ELC. This TA must include—
 - (1) General TA to States, early childhood programs, early childhood personnel, IHEs, faculty, professional development providers, and other relevant stakeholders. At a minimum, the Center must conduct the following activities:
 - (i) Develop and disseminate reports, products, and other materials at no cost to consumers that include:

- (A) Information on personnel standards and competencies, as well as certification or licensure requirements, and early childhood professional development systems in each State, including a description of each State's efforts to ensure and enhance the quality of early childhood personnel working with infants, toddlers, and preschool children with disabilities and their families.
 - (B) Current recommendations for effective professional development practices in preservice and inservice contexts to support personnel in developing the competencies to provide effective services and evidence-based interventions for infants, toddlers, and preschool children with disabilities and their families.
 - (C) Strategies for developing State agency and IHE partnerships to develop an integrated and comprehensive early childhood professional development system that addresses the needs of personnel working with infants, toddlers, and preschool children with disabilities and their families.
- (ii) Maintain a Web site that meets government or industry-recognized standards for accessibility and that links to the Web site operated by the Technical Assistance Coordination Center (TACC);
- (2) Targeted TA to States and IHEs to ensure that early childhood personnel have the competencies to serve infants, toddlers, and preschool children with disabilities and their families. At minimum, the Center must conduct the following activities:
 - (i) Provide a forum for States to collaborate through learning communities, communities of practice, national calls, webinars, or other mechanisms to learn about personnel standards and competencies for personnel working with infants, toddlers, and preschool children with disabilities and their families and how to use current recommended practices in professional development activities.
 - (ii) Provide a forum for IHEs to collaborate through learning communities, communities of practice, national calls, webinars, or other mechanisms to learn how to align their programs to State personnel standards and competencies for personnel working with infants, toddlers, and preschool children with disabilities and their families and how to use current recommended practices in professional development activities.

- (iii) Plan and implement activities, which could include webinars, meetings, video conferences, and Web sites to support States and IHEs forming and sustaining partnerships to support alignment between preservice and inservice training for personnel working with infants, toddlers, and preschool children with disabilities and their families.
 - (iv) Assist States, including States awarded grants through RTT-ELC, in their efforts to include IDEA Part C and Part B preschool programs and providers in their integrated early childhood professional development systems and initiatives; and
- (3) Intensive TA to a minimum of eight States to enhance their IDEA Part C and Part B preschool professional development systems and to support the development of integrated comprehensive early childhood professional development systems to ensure that all personnel have the competencies to effectively serve infants, toddlers, and preschool children with disabilities and their families. At a minimum, the Center must conduct the following activities:
- (i) Assist the States receiving intensive TA under paragraph (a)(3) of this section to align their personnel standards for personnel working with infants, toddlers, and preschool children with disabilities and their families with a set of recommended unified national professional organization personnel standards, align or integrate those standards with standards for early childhood personnel of all children, and link their State standards to competencies and certification or licensure requirements in their IDEA Part C and Part B programs.
 - (ii) Assist the States receiving intensive TA under this section and IHEs in those States in developing partnerships to ensure that preservice preparation programs in early intervention and early childhood special education are aligned to State personnel standards and competencies, that inservice training builds on preservice preparation in early intervention and special education, and that recommended practices for professional development are included in both preservice and inservice programs.
 - (iii) Assist the States receiving intensive TA under this section in developing an integrated professional development system applicable to personnel in all programs serving infants, toddlers, and preschool children with disabilities and their families to ensure that—

- (A) Workforce knowledge and competency frameworks and personnel standards within the State include competencies needed to work with infants, toddlers, and preschool children with disabilities and their families;
 - (B) Professional development opportunities in a State are available and provided across all early childhood programs that serve children with disabilities and include professional development on serving infants and toddlers with disabilities and their families in natural environments, and preschool children with disabilities in inclusive settings; and
 - (C) IDEA Part C and Part B preschool programs and providers are considered and included when developing and implementing personnel initiatives in the State.
- (b) Develop a plan for identifying and selecting the States with which the Center will work under paragraph (a)(3) of this section. Factors for selecting States for consideration could include the State's early childhood priorities and initiatives; receipt of an RTT-ELC grant; the commitment of the State's multiple early childhood programs to participate in the TA to support the professional development of all personnel who serve infants, toddlers, and preschool children with disabilities and their families; the commitment of the State's IHEs, including community colleges to participate in the TA; the commitment of the early intervention and community-based early childhood programs in high-need local educational agencies (LEAs)⁵ in the State to participate in the TA; and the demographic and geographic characteristics of each State, including the percentage of high-need children with disabilities⁶ and their families. The Center must obtain approval from OSEP on the final selection of States.
- (c) In consultation with the OSEP Project Officer, make selected reports, documents, and other materials available in both English and Spanish.

⁵ For the purpose of this priority, the term "high-need local educational agency" (LEA) means an LEA (a) that serves not fewer than 10,000 children from families with incomes below the poverty line; or (b) for which not less than 20 percent of the children served by the LEA are from families with incomes below the poverty line.

⁶ For the purpose of this priority, "high-need children with disabilities" refers to children (ages birth through 5) who are eligible for services under IDEA, and who may be further disadvantaged and at risk of educational failure because they: (1) are living in poverty, (2) are homeless, (3) are in foster care, (4) are English learners, (5) are new immigrants, or (6) are migrant.

Leadership and Coordination Activities.

- (a) Consult with a group of persons, including representatives from State and local educational agencies, including representatives from IDEA Part C and Part B preschool programs; State level representatives from other early child systems (e.g., State Child Care Administrators and Head Start Collaboration Directors); early childhood personnel; parents of infants, toddlers, or preschool children with disabilities; faculty in personnel preparation; and researchers, as appropriate, on the activities and outcomes of the Center and solicit programmatic support and advice from various participants in the group, as appropriate. The Center may convene meetings, whether in person, by phone, or other means, for this purpose, or may consult with group participants individually. The Center must identify the members of the group to OSEP within eight weeks after receipt of the award..
- (b) Communicate and collaborate, on an ongoing basis, with OSEP-funded projects, including the TACC and other early childhood-focused centers, as appropriate, as well as other U.S. Department of Education and U.S. Department of Health and Human Services-funded early childhood-focused centers, as appropriate. This collaboration could include the joint development of products, the coordination of TA services, and the planning and carrying out of TA meetings and events.
- (c) Participate in national initiatives related to early childhood professional development systems.
- (d) Prior to developing any new product, submit a proposal for the product to the TACC database for approval from the OSEP Project Officer. The development of new products should be consistent with the product definition and guidelines posted on the TACC Web site (www.tadnet.org).
- (e) Contribute, on an ongoing basis, updated information on the Center's approved and finalized products and services to a database at TACC.
- (f) Maintain ongoing communication with the OSEP Project Officer through monthly phone conversations and e-mail communication.

Fourth and Fifth Years of Project:

In deciding whether to continue funding the Center for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a) and in addition—

- (a) The recommendation of a review team consisting of experts selected by the Secretary. This review will be conducted during a one-day intensive meeting in Washington, DC, during the last half of the project's second year. The Center must budget for travel expenses associated with this one-day intensive review;
- (b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center; and
- (c) The quality, relevance, and usefulness of the Center's activities and the degree to which the Center's activities have contributed to changed practices and improved early childhood professional development systems to improve outcomes for infants, toddlers, and preschool children with disabilities and their families.

Requirements concerning the content of an application, together with the forms you must submit, are in the application package for this competition.

Page Limit: The application narrative (Part III of the application) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. You must limit Part III to the equivalent of no more than 50 pages using the following standards:

- A "page" is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography, the references, or the letters of support. 3. Submission Dates and Times:

Applications Available: **June 18, 2012.**

Deadline for Transmittal of Applications: **July 18, 2012.**

Applications for grants under this competition may be submitted electronically using the Grants.gov Apply site (Grants.gov), or in paper format by mail or hand delivery. For information (including dates and times) about how to submit your application electronically, or in paper format by mail or hand delivery, please refer to section IV. 7. Other Submission Requirements of this notice.

We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact the person listed under For Further Information Contact in section VII of this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

4. Intergovernmental Review:

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. Information about Intergovernmental Review of Federal Programs under Executive Order 12372 is in the application package for this program.

5. Funding Restrictions:

We reference regulations outlining funding restrictions in the Applicable Regulations section of this notice.

6. Data Universal Numbering System Number, Taxpayer Identification Number, and Central Contractor Registry:

To do business with the Department of Education, you must—

- a. Have a Data Universal Numbering System (DUNS) number and a Taxpayer Identification Number (TIN);
- b. Register both your DUNS number and TIN with the Central Contractor Registry (CCR), the Government's primary registrant database;
- c. Provide your DUNS number and TIN on your application; and
- d. Maintain an active CCR registration with current information while your application is under review by the Department and, if you are awarded a grant, during the project period.

You can obtain a DUNS number from Dun and Bradstreet. A DUNS number can be created within one business day.

If you are a corporate entity, agency, institution, or organization, you can obtain a TIN from the Internal Revenue Service. If you are an individual, you can obtain a TIN from the Internal

Revenue Service or the Social Security Administration. If you need a new TIN, please allow 2-5 weeks for your TIN to become active.

The CCR registration process may take five or more business days to complete. If you are currently registered with the CCR, you may not need to make any changes. However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your CCR registration on an annual basis. This may take three or more business days to complete.

In addition, if you are submitting your application via Grants.gov, you must

(1) be designated by your organization as an Authorized Organization Representative (AOR);
and

(2) register yourself with Grants.gov as an AOR.

Details on these steps are outlined at the following Grants.gov Web page:

www.grants.gov/applicants/get_registered.jsp.

7. Other Submission Requirements:

Applications for grants under this competition may be submitted electronically or in paper format by mail or hand delivery.

a. Electronic Submission of Applications.

We are participating as a partner in the Governmentwide Grants.gov Apply site. The Early Childhood Personnel Center, CFDA number 84.325B, is included in this project. We request your participation in Grants.gov.

If you choose to submit your application electronically, you must use the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us.

You may access the electronic grant application for the Early Childhood Personnel Center, CFDA number 84.325B at www.Grants.gov.

You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.325, not 84.325B).

Please note the following:

- Your participation in Grants.gov is voluntary.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.
- Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not accept your application if it is received—that is, date and time stamped by the Grants.gov system—after 4:30:00 p.m., Washington, DC time, on the application deadline date. We do not consider an application that does not comply with the deadline requirements. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date and time stamped by the Grants.gov system after 4:30:00 p.m., Washington, DC time, on the application deadline date.
- The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.
- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov under News and Events on the Department's G5 system home page at <http://www.G5.gov>.
- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you submit your application in paper format.

- If you submit your application electronically, you must upload all documents electronically, including all information you typically provide on the following forms: the Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications.
- If you submit your application electronically, you must upload any narrative sections and all other attachments to your application as files in a PDF (Portable Document) read-only, non-modifiable format. Do not upload an interactive or fillable PDF file. If you upload a file type other than a read-only, non-modifiable PDF or submit a password-protected file, we will not review that material.
- Your electronic application must comply with any page-limit requirements described in this notice.
- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by email. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifying number unique to your application).
- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System:

If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk, toll free, at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30:00 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically or by hand delivery. You also may mail your application by following the mailing instructions described elsewhere in this notice.

If you submit an application after 4:30:00 p.m., Washington, DC time, on the application deadline date, please contact the person listed under For Further Information Contact in section VII of this notice and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number. We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30:00 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

b. Submission of Paper Applications by Mail.

If you submit your application in paper format by mail (through the U.S. Postal Service or a commercial carrier), you must mail the original and two copies of your application, on or before the application deadline date, to the Department at the following address:

U.S. Department of Education
Application Control Center
Attention: (CFDA Number 84.325B)

- (3) A dated shipping label, invoice, or receipt from a commercial carrier.
- (4) Any other proof of mailing acceptable to the Secretary of the U.S. Department of Education.

If you mail your application through the U.S. Postal Service, we do not accept either of the following as proof of mailing:

- (1) A private metered postmark.
- (2) A mail receipt that is not dated by the U.S. Postal Service.

If your application is postmarked after the application deadline date, we will not consider your application.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you should check with your local post office.

c. Submission of Paper Applications by Hand Delivery.

If you submit your application in paper format by hand delivery, you (or a courier service) must deliver the original and two copies of your application by hand, on or before the application deadline date, to the Department at the following address:

U.S. Department of Education
Application Control Center
Attention: (CFDA Number 84.325B)
550 12th Street, SW.
Room 7041, Potomac Center Plaza
Washington, DC 20202-4260

The Application Control Center accepts hand deliveries daily between 8:00 a.m. and 4:30:00 p.m., Washington, DC time, except Saturdays, Sundays, and Federal holidays.

Note for Mail or Hand Delivery of Paper Applications:

If you mail or hand deliver your application to the Department—

- (1) You must indicate on the envelope and—if not provided by the Department—in Item 11 of the SF 424 the CFDA number, including suffix letter, if any, of the competition under which you are submitting your application; and

- (2) The Application Control Center will mail to you a notification of receipt of your grant application. If you do not receive this notification within 15 business days from the application deadline date, you should call the U.S. Department of Education Application Control Center at (202) 245-6288.

V. Application Review Information

1. Selection Criteria:

The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process:

- (a) We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.
- (b) In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. Additional Review and Selection Process Factors:

In the past, the Department has had difficulty finding peer reviewers for certain competitions because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under section 682(b) of IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

4. Special Conditions:

Under 34 CFR 74.14 and 80.12, the Secretary may impose special conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 34 CFR parts 74 or 80, as applicable; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. Award Notices:

If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements:

We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting:

- (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).
- (b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. Performance Measures:

Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to

yield information on various aspects of the effectiveness and quality of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program. For purposes of this priority, the Center will use these measures which focus on the extent to which projects provide high-quality products and services, the relevance of project products and services to educational and early intervention policy and practice, and the use of products and services to improve educational and early intervention policy and practice.

Grantees will be required to report information on their project's performance in annual reports to the Department (34 CFR 75.590).

5. Continuation Awards:

In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made "substantial progress toward meeting the objectives in its approved application." This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

IMPORTANT—PLEASE READ FIRST
U.S. Department of Education
GRANTS.GOV SUBMISSION PROCEDURES AND
TIPS FOR APPLICANTS

To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

ATTENTION—Adobe Forms and PDF Files Required

Applications submitted to Grants.gov for the Department of Education will be posted using Adobe forms. Therefore, applicants will need to download the latest version of Adobe reader (at least Adobe Reader 8.1.2). Information on computer and operating system compatibility with Adobe and links to download the latest version is available on Grants.gov. We strongly recommend that you review these details on www.Grants.gov before completing and submitting your application. In addition, applicants should submit their application a day or two in advance of the closing date as detailed below. Also, applicants are required to upload their attachments in .pdf format only. (See details below under “Attaching Files – Additional Tips.”) If you have any questions regarding this matter please email the Grants.gov Contact Center at support@grants.gov or call 1-800-518-4726.

1) REGISTER EARLY

Grants.gov registration may take five or more business days to complete. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Registration steps are complete. For detailed information on the Registration Steps, please go to: http://www.grants.gov/applicants/get_registered.jsp [Note: Your organization will need to update its Central Contractor Registry (CCR) registration annually.]

2) SUBMIT EARLY

We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully to Grants.gov before 4:30:00 p.m. Washington, DC time on the deadline date.

Note: To submit successfully, you must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov. This DUNS number is typically the same number used when your organization registered with the CCR (Central Contractor Registry). If you do not enter the same DUNS number on your application as the DUNS you registered with, Grants.gov will reject your application.

3) VERIFY SUBMISSION IS OK

You will want to verify that Grants.gov received your application submission on time and that it was validated successfully. To see the date/time your application was received, login to

Grants.gov and click on the Track My Application link. For a successful submission, the date/time received should be earlier than 4:30:00 p.m. Washington, DC time, on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned. Once the Department of Education receives your application from Grants.gov, an Agency Tracking Number (PR/award number) will be assigned to your application and will be available for viewing on Grants.gov's Track My Application link.

If the date/time received is later than 4:30:00 p.m. Washington, D.C. time, on the deadline date, your application is late. If your application has a status of "Received" it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to "Validated" or "Rejected with Errors." If the status is "Rejected with Errors," your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site:

http://www.grants.gov/applicants/applicant_faqs.jsp#54. For more detailed information on troubleshooting Adobe errors, you can review the Adobe Reader Error Messages document at <http://www.grants.gov/assets/AdobeReaderErrorMessages.pdf>. If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

SUBMISSION PROBLEMS—WHAT SHOULD YOU DO?

If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or <http://www.grants.gov/contactus/contactus.jsp>, or access the Grants.gov Self-Service web portal at: <https://grants-portal.psc.gov/Welcome.aspx?pt=Grants>

If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.

If electronic submission is required, you must submit an electronic application before 4:30:00 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

HELPFUL HINTS WHEN WORKING WITH GRANTS.GOV

Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application.

You must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov.

Please go to <http://www.grants.gov/contactus/contactus.jsp> for help with Grants.gov. For additional tips related to submitting grant applications, please refer to the Grants.gov Submit Application FAQs found on the Grants.gov

http://www.grants.gov/applicants/submit_application_faqs.jsp.

DIAL-UP INTERNET CONNECTIONS

When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. **If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

MAC USERS

For MAC compatibility information, review the Operating System Platform Compatibility Table at the following Grants.gov link: http://www.grants.gov/help/download_software.jsp. **If electronic submission is required and you are concerned about your ability to submit electronically as a non-windows user, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

ATTACHING FILES—ADDITIONAL TIPS

Please note the following tips related to attaching files to your application, especially the requirement that applicants **only include read-only, non-modifiable .PDF files** in their application:

1. Ensure that you attach **.PDF files only** for any attachments to your application, and they must be in a **read-only, non-modifiable format**. PDF files are the only Education approved file type accepted as detailed in the Federal Register application notice. Applicants must submit individual .PDF files only when attaching files to their application. Specifically, the Department will not accept any attachments that contain files within a file, such as PDF Portfolio files, or an interactive or fillable .PDF file. Any attachments uploaded that are not .PDF files or are password protected files will not be read. If you need assistance converting your files to a .pdf format, please refer to the following Grants.gov webpage with links to conversion programs under the heading of additional resources:
http://www.grants.gov/applicants/app_help_reso.jsp
2. Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission. Therefore, each file uploaded to your application package should have a unique file name.
3. When attaching files, applicants should follow the guidelines established by Grants.gov on the size and content of file names. Uploaded files must be less than 50 characters, contain no spaces, no special characters (example: -, &, *, %, /, #, \) including periods (.), blank spaces and accent marks. Applications submitted that do not comply with the Grants.gov guidelines will be rejected at Grants.gov and not forwarded to the Department.
4. Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. For reference, the average discretionary grant application package totals 1 to 2 MB. Therefore, you may want to check the total size of your package before submission.

PRIORITY DESCRIPTION AND SELECTION CRITERIA

EARLY CHILDHOOD PERSONNEL CENTER (CFDA 84.325B)

DEADLINE: 07/18/2012

ABSOLUTE PRIORITY:

BACKGROUND

The majority of professionals who make up the current early childhood workforce are not adequately prepared to provide effective services and evidence-based interventions that lead to improved developmental and learning outcomes for infants, toddlers, and preschool children with disabilities and their families (National Governor's Association, 2010). In a survey of IDEA Part C and Part B, Section 619 coordinators, more than half of the States reporting indicated that personnel currently employed in early intervention and preschool programs were not properly trained to work with infants, toddlers, and preschool children with disabilities and their families (Bruder, 2010). The Division for Early Childhood of the Council for Exceptional Children (DEC) and the National Association for the Education of Young Children (NAEYC) each has a set of early childhood personnel standards¹ for personnel working with infants, toddlers, and preschool children and their families. The majority of States' personnel standards, however, do not align to these national standards (Stayton et al., 2009).

To address the needs of States in this critical area, the Department plans to support, through this priority, the establishment and operation of an Early Childhood Personnel Center to improve professional development for personnel working with infants, toddlers, and preschool children with disabilities and their families, including those working in IDEA Part C and Part B preschool programs. This Center would support States in developing and implementing an integrated early childhood professional development system so that all personnel providing services to infants, toddlers, and preschool children with disabilities and their families can effectively serve those populations.

"Integrated early childhood professional development system" refers to a comprehensive system of preparation and ongoing development and support for early childhood personnel. Components of a statewide integrated early childhood professional development system include licensing and certification requirements, personnel standards and competencies,² preservice preparation, inservice training, and career pathways. Integrated systems cross all early childhood sectors (e.g., IDEA Part C, IDEA Part B preschool, Head Start, child care, State-funded Pre-K) (LeMoine, 2008; National Professional Development Center on Inclusion (NPDCI), 2010).

The Department's Race to the Top—Early Learning Challenge (RTT-ELC) program recognizes the importance of having an integrated early childhood professional development system to support the development and learning of all young children. Thus, RTT-ELC encourages States

¹ For the purpose of this priority, "personnel standards" refers to a set of expectations or benchmarks conveyed as broad domains with associated core knowledge and skills organized into levels of expertise. Broad domains include promoting child development and learning, and core knowledge and skills involve knowing evidence-based practices validated for specific characteristics of learners and settings (National Professional Development Center on Inclusion (NPDCI), 2011).

² For the purpose of this priority, "competencies" refers to the knowledge, skills, and dispositions providers must master to be effective (NPDCI, 2011).

to work closely with institutions of higher education (IHEs) to develop a common, statewide workforce knowledge and competency framework³ for all early childhood educators.⁴ RTT-ELC also encourages States to improve the quality of these personnel by supporting professional development, career advancement opportunities, differentiated compensation, and incentives to improve their knowledge, skills, and abilities.

Notwithstanding the work currently being done under the RTT-ELC program, and while early childhood programs within States are moving toward more integrated early childhood professional development systems, States need assistance to develop, implement, and improve personnel systems that are focused on providing services to infants, toddlers and preschool children with disabilities and their families. Across States, there are wide variations in the quality of implementation of the components of these systems, the alignment of these components to create a comprehensive professional development system, and the integration of IDEA Part C and IDEA Part B preschool professional development systems with other early childhood professional development systems (NPDCI, 2011). Thus, States, including those funded under RTT-ELC, specifically need assistance in: aligning their personnel standards to national professional organization standards for providing services to infants, toddlers, and preschool children with disabilities and their families; ensuring that those standards are aligned or integrated with State standards for early childhood personnel of all children, linking those standards to applicable State competencies and certification or licensure requirements to ensure that all early childhood personnel are qualified to work with infants, toddlers, and preschool children, including those with disabilities and their families; developing collaborative relationships with IHEs to support alignment between preservice and inservice training and the increased use of evidence-based professional development practices to improve services for infants, toddlers, and preschool children with disabilities; and ensuring that States include personnel serving infants, toddlers, and preschool children with disabilities and their families in their career pathway initiatives (e.g., workforce registries, career ladders, and incentive programs). The proposed Early Childhood Personnel Center would provide technical assistance (TA) to address State needs in these areas.

³ For the purpose of this priority, “workforce knowledge and competency framework” means a set of expectations that describes what early childhood educators (including those working with children with disabilities and English learners) should know and be able to do. The Workforce Knowledge and Competency Framework, at a minimum, (a) is evidence based; (b) incorporates knowledge and application of the State’s early learning and development standards, the comprehensive assessment systems, child development, health, and culturally and linguistically appropriate strategies for working with families; (c) includes knowledge of early mathematics and literacy development and effective instructional practices to support mathematics and literacy development in young children; (d) incorporates effective use of data to guide instruction and program improvement; (e) includes effective behavior management strategies that promote positive social emotional development and reduce challenging behaviors; and (f) incorporates feedback from experts at the State’s postsecondary institutions and other early learning and development experts and early childhood educators.

⁴ As defined in RTT-ELC, “early childhood educator” means any professional working in an early learning and development program, including but not limited to, center-based and family child care providers; infant and toddler specialists; early intervention specialists and early childhood special educators; home visitors; related services providers; administrators such as directors, supervisors, and other early learning and development leaders; Head Start teachers; Early Head Start teachers; preschool and other teachers; teacher assistants; family service staff; and health coordinators.

PRIORITY:

The purpose of this priority is to fund a cooperative agreement to support the establishment and operation of an Early Childhood Personnel Center (Center) to:

- (1) serve as a national resource on personnel standards, competencies, and recommended practices for professional development for personnel providing services to infants, toddlers, and preschool children with disabilities and their families;
- (2) assist States in aligning their personnel standards to national professional organization standards for all personnel providing services to infants, toddlers, and preschool children with disabilities and their families, aligning or integrating those standards with standards for early childhood personnel of all children, and linking those standards to State competencies and certification or licensure requirements;
- (3) assist State agencies and IHEs in developing partnerships with each other to support alignment between preservice and inservice training for all personnel providing services to infants, toddlers and preschool children with disabilities and their families; and
- (4) in alignment with the vision outlined in RTT-ELC, assist States in developing integrated early childhood professional development systems to ensure that IDEA Part C and Part B preschool programs and personnel in each State are included within the State's professional development initiatives and that all early childhood personnel have the competencies to effectively serve infants, toddlers, and preschool children with disabilities and their families.

To be considered for funding under this absolute priority, applicants must meet the application requirements contained in this priority. Any project funded under this absolute priority also must meet the programmatic and administrative requirements specified in the priority.

TECHNICAL ASSISTANCE AND DISSEMINATION ACTIVITIES.

- (a) Provide a continuum of TA and dissemination activities to improve and integrate early childhood professional development systems with one another so that early childhood personnel have the competencies to support the learning and development of infants, toddlers, and preschool children with disabilities and their families and ensure that TA activities are coordinated with, and not duplicative of, State activities carried out under the RTT-ELC. This TA must include—
 - (1) General TA to States, early childhood programs, early childhood personnel, IHEs, faculty, professional development providers, and other relevant stakeholders. At a minimum, the Center must conduct the following activities:
 - (i) Develop and disseminate reports, products, and other materials at no cost to consumers that include:

- (ii) Maintain a Web site that meets government or industry-recognized standards for accessibility and that links to the Web site operated by the Technical Assistance Coordination Center (TACC);
- (2) Targeted TA to States and IHEs to ensure that early childhood personnel have the competencies to serve infants, toddlers, and preschool children with disabilities and their families. At minimum, the Center must conduct the following activities:
 - (i) Provide a forum for States to collaborate through learning communities, communities of practice, national calls, webinars, or other mechanisms to learn about personnel standards and competencies for personnel working with infants, toddlers, and preschool children with disabilities and their families and how to use current recommended practices in professional development activities.
 - (ii) Provide a forum for IHEs to collaborate through learning communities, communities of practice, national calls, webinars, or other mechanisms to learn how to align their programs to State personnel standards and competencies for personnel working with infants, toddlers, and preschool children with disabilities and their families and how to use current recommended practices in professional development activities.
 - (iii) Plan and implement activities, which could include webinars, meetings, video conferences, and Web sites to support States and IHEs forming and sustaining partnerships to support alignment between preservice and inservice training for personnel working with infants, toddlers, and preschool children with disabilities and their families.

At a minimum, the Center must conduct the following activities:
 - (i) Assist the States receiving intensive TA under paragraph (a)(3) of this section to align their personnel standards for personnel working with infants, toddlers, and preschool children

with disabilities and their families with a set of recommended unified national professional organization personnel standards, align or integrate those standards with standards for early childhood personnel of all children, and link their State standards to competencies and certification or licensure requirements in their IDEA Part C and Part B programs.

- (ii) Assist the States receiving intensive TA under this section and IHEs in those States in developing partnerships to ensure that preservice preparation programs in early intervention and early childhood special education are aligned to State personnel standards and competencies, that inservice training builds on preservice preparation in early intervention and special education, and that recommended practices for professional development are included in both preservice and inservice programs.
- (iii) Assist the States receiving intensive TA under this section in developing an integrated professional development system applicable to personnel in all programs serving infants, toddlers, and preschool children with disabilities and their families to ensure that—
 - (A) Workforce knowledge and competency frameworks and personnel standards within the State include competencies needed to work with infants, toddlers, and preschool children with disabilities and their families;
 - (B) Professional development opportunities in a State are available and provided across all early childhood programs that serve children with disabilities and include professional development on serving infants and toddlers with disabilities and their families in natural environments, and preschool children with disabilities in inclusive settings; and
 - (C) IDEA Part C and Part B preschool programs and providers are considered and included when developing and implementing personnel initiatives in the State.
- (b) Develop a plan for identifying and selecting the States with which the Center will work under paragraph (a)(3) of this section. Factors for selecting States for consideration could include the State's early childhood priorities and initiatives; receipt of an RTT-ELC grant; the commitment of the State's multiple early childhood programs to participate in the TA to support the professional development of all personnel who serve infants, toddlers, and preschool children with disabilities and their families; the commitment of the State's IHEs, including community colleges to participate in the TA; the commitment of the early intervention and community-based early childhood programs in high-need local educational agencies (LEAs)⁵ in the State to participate in the TA; and the demographic and geographic characteristics of each State, including the percentage of high-need children with disabilities⁶ and their families. The Center must obtain approval from OSEP on the final selection of States.
- (c) In consultation with the OSEP Project Officer, make selected reports, documents, and other materials available in both English and Spanish.

⁵ For the purpose of this priority, the term "high-need local educational agency" (LEA) means an LEA (a) that serves not fewer than 10,000 children from families with incomes below the poverty line; or (b) for which not less than 20 percent of the children served by the LEA are from families with incomes below the poverty line.

⁶ For the purpose of this priority, "high-need children with disabilities" refers to children (ages birth through 5) who are eligible for services under IDEA, and who may be further disadvantaged and at risk of educational failure because they: (1) are living in poverty, (2) are homeless, (3) are in foster care, (4) are English learners, (5) are new immigrants, or (6) are migrant.

LEADERSHIP AND COORDINATION ACTIVITIES.

- (a) Consult with a group of persons, including representatives from State and local educational agencies, including representatives from IDEA Part C and Part B preschool programs; State level representatives from other early child systems (e.g., State Child Care Administrators and Head Start Collaboration Directors); early childhood personnel; parents of infants, toddlers, or preschool children with disabilities; faculty in personnel preparation; and researchers, as appropriate, on the activities and outcomes of the Center and solicit programmatic support and advice from various participants in the group, as appropriate. The Center may convene meetings, whether in person, by phone, or other means, for this purpose, or may consult with group participants individually. The Center must identify the members of the group to OSEP within eight weeks after receipt of the award..
- (b) Communicate and collaborate, on an ongoing basis, with OSEP-funded projects, including the TACC and other early childhood-focused centers, as appropriate, as well as other U.S. Department of Education and U.S. Department of Health and Human Services-funded early childhood-focused centers, as appropriate. This collaboration could include the joint development of products, the coordination of TA services, and the planning and carrying out of TA meetings and events.
- (c) Participate in national initiatives related to early childhood professional development systems.
- (d) Prior to developing any new product, submit a proposal for the product to the TACC database for approval from the OSEP Project Officer. The development of new products should be consistent with the product definition and guidelines posted on the TACC Web site (www.tadnet.org).
- (e) Contribute, on an ongoing basis, updated information on the Center's approved and finalized products and services to a database at TACC.
- (f) Maintain ongoing communication with the OSEP Project Officer through monthly phone conversations and e-mail communication.

FOURTH AND FIFTH YEARS OF PROJECT:

In deciding whether to continue funding the Center for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a) and in addition—

- (a) The recommendation of a review team consisting of experts selected by the Secretary. This review will be conducted during a one-day intensive meeting in Washington, DC, during the last half of the project's second year. The Center must budget for travel expenses associated with this one-day intensive review;
- (b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center; and
- (c) The quality, relevance, and usefulness of the Center's activities and the degree to which the Center's activities have contributed to changed practices and improved early childhood professional development systems to improve outcomes for infants, toddlers, and preschool children with disabilities and their families.

In general, this information applies to the grant competitions covered by this application package.

EXTENSION OF DEADLINES

Waivers for individual applications are not granted, regardless of the circumstances. Under very extraordinary circumstances a closing date may be changed. Such changes are announced in the *Federal Register*.

COPIES OF THE APPLICATION

Current Government-wide policy is that only an original and two copies need to be submitted. OSEP would appreciate receiving three additional copies to facilitate the peer review process. This would mean an original and two copies need to be submitted and we would appreciate your voluntarily submitting an additional three copies (six applications in all). Copies of the application may be bound, but it is not necessary or required. If bound, one copy should be left unbound to facilitate electronic scanning and any necessary reproduction. Applicants should not use colored paper, foldouts, photographs, or other materials that are hard to duplicate.

Please Note: If an application is recommended for funding and a grant award is issued, we will contact the applicant to request a copy of the application on a diskette or CD. The Department is moving toward an electronic grant filing system and an electronic copy of all applications that are being funded will facilitate this effort.

MAKING APPLICATIONS MORE ACCESSIBLE TO REVIEWERS WHO ARE BLIND OR HAVE LOW VISION

The Department will accept one copy of the application in an accessible format (i.e., IBM PC compatible WordPerfect or ASCII code diskette) along with the original and two print copies of the application. The accessible format copy can be used with available software to convert the text of the application into Braille, or with text to voice applications. If there are any differences in the print original provided on the disk and in print, the print original is assumed to be the correct version. Please note that it is not a requirement that one copy of the application be in an accessible format.

MISSED DEADLINES AND SUBMISSION UNDER OTHER COMPETITIONS

Should an application miss the deadline for a particular competition, it may be submitted to another competition. However, if an application is properly prepared to meet the specifications of one competition, it is extremely unlikely that it would be favorably evaluated under a different competition.

SUBMISSION TO MORE THAN ONE PROGRAM

Applications may be submitted to more than one Federal program if you are unsure of the most appropriate program. Each application should be prepared following the instructions for that particular program as closely as possible (which may require some reformulation). It is very helpful if each program is notified that an identical or similar application is being submitted to another program.

HELP PREPARING APPLICATIONS

We are happy to provide general program information. Clearly it would **not** be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about our application requirements and evaluation criteria, or about the announced priorities. Applicants should understand that such previous contact is not required, nor does it guarantee the success of an application.

NOTIFICATION OF FUNDING

The time required to complete the evaluation of applications is variable. Once applications have been received staff must determine the areas of expertise needed to appropriately evaluate the applications, identify and contact potential reviewers, convene peer review panels, and summarize and review the recommendations of the review panels. You can expect to receive notification within 3 to 6 months of the application closing date, depending on the number of applications received and the number of competitions with closing dates at about the same time.

POSSIBILITY OF LEARNING THE OUTCOME OF REVIEW PANELS PRIOR TO OFFICIAL NOTIFICATION

Every year we are called by a number of applicants who have legitimate reasons for needing to know the outcome of the review prior to official notification. Some applicants need to make job decisions, some need to notify a local school district, etc. Regardless of the reason, we cannot share information about the review with **anyone** until the Assistant Secretary has approved a slate of projects recommended for funding. You will be notified as quickly as possible either by telephone (if your application is recommended for funding), or through a letter (if your application is not successful).

FORMAT FOR APPLICATIONS

The application narrative (Part III of the application form) should be organized to follow the exact sequence of the components in the selection criteria used to evaluate applications. (The selection criteria for the competitions covered by this packet are listed following the specific competition information in section "B" of this packet.) A table of contents, list of priority requirements, and an abstract should precede the application narrative. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

An **abstract**, not to exceed one page, should precede the application narrative of all applications. In addition to any requirements for the abstract in the priority, it would be helpful if it included the following information: Purpose of the project; disability addressed by the project; age group (e.g., 0-3, preschool, elementary school, middle school, high school, secondary transition, and postsecondary); geography (e.g., rural, suburban, urban); severity (e.g., mild, moderate, and severe); proposed products; proposed outcomes; names/affiliations of key collaborators. It would be helpful if the abstract includes: (a) the title of the program, (b) the name of the Absolute Priority, and (c) the CFDA Number (e.g., 84.325B).

For Personnel Preparation applications, the abstract should also include, as appropriate, (a) the degree individuals receive upon completion of the program, (b) type of program offered, (c) number of students who receive support, and (d) percent of total annual funding designated for student support.

To aid in screening and reviewing the application, applicants should list in Part II and prior to the abstract, all general, special, and other requirements for the priority and corresponding page

number (s) where requirements are addressed within the application. Page limits do not apply to this list. (All requirements are found in each priority description included in this application package.) The format included below is an example of how you might provide this information in your application.

PAGE #	REQUIREMENTS
_____	(a) Projects funded under this notice must make positive efforts to employ and advance in employment qualified individuals with disabilities in project activities. (See Section 606 of IDEA)
_____	(b) Applicants and grant recipients funded under this notice must involve individuals with disabilities or parents of individuals with disabilities ages birth through 26 in planning, implementing, and evaluating the projects. (See Section 682(a)(1)(A) of IDEA)
_____	(c) Applicant must describe steps to ensure equitable access to, and participation in, its program for students, teachers, and other program beneficiaries with special needs. (See Section 427, GEPA)
_____	(d) Projects funded under these priorities must budget for a three-day Project's Directors' meeting in Washington, D.C. during each year of the project.

PAGE LIMITS

Please note that all applications submitted under the competition in this application package must adhere to the Part III—Application Narrative page limit requirements that are specified under each priority/competition description. Your application should provide enough information to allow the review panel to evaluate the importance and impact of the project as well as to make knowledgeable judgments about the methods you propose to use (design, subjects, sampling procedures, measures, instruments, data analysis strategies, etc.). It is often helpful to have:

1. **Staff Vitae:** They should include each person's title and role in the proposed project and contain only information that is relevant to this proposed project's activities and/or publications. Vitae for consultants and Advisory Council members should be similarly brief.
2. **Instruments:** Except in the case of generally available and well known instruments.
3. **Agreements:** When the participation of an agency other than the applicant is critical to the project. This is particularly critical when an intervention will be implemented within an agency, or when subjects will be drawn from particular agencies. Letters of cooperation should be specific, indicating agreement to implement a particular intervention or to provide access to a particular group of students.

The items listed above are not included under page limits.

MAKING SURE APPLICATION IS ASSIGNED TO THE CORRECT COMPETITION

Applicants should clearly indicate in Item 11 on the application (SF Form 424) the CFDA number of the program priority (e.g., 84.325B, etc.) representing the competition in which the application

should be considered. If this information is not provided, your application may inadvertently be assigned and reviewed under a different competition from the one you intended.

RETURN OF NON-FUNDED APPLICATIONS

We do not return original copies of applications. Thus, applicants should retain at least one copy of the application. Copies of reviewer comments will be mailed to all applicants.

PROPOSED STAFF AVAILABILITY TO PROJECT

For each staff person named in the application, please provide documentation of all internal and external time commitments. In instances where a staff person is committed on a federally supported project, please provide the project name, Federal office, program title, the project federal award number, and the amount of committed time by each project year. This information (e.g., Staff: Jane Doe; Project Name: Succeeding in the General Curriculum; Federal office: Office of Special Education Programs; Program title: Personnel Development to Improve Services and Results for Children with Disabilities; Award number: H326A030002; Time commitments: Year 1—30%; Year 2—25% and Year 3—40%) can be provided as an Appendix to the application.

In general, we will not reduce time commitments on currently funded grants from the time proposed in the original application. Therefore, we will not consider for funding any application where key staff are bid above a time commitment level that staff have available to bid. Further, the time commitments stated in newly submitted applications will not be negotiated down to permit the applicant to receive a new grant award.

USE OF PERSON LOADING CHARTS

It is important for applicants to include proposed time commitments for all project personnel. Also, program officials and applicants often find person loading charts useful formats for showing project personnel and their time commitments to individual activities. A person loading chart is a tabular representation of major evaluation activities by number of days spent by each key person involved in each activity, as shown in the following example.

TABLE: PERSON LOADING CHART —TIME IN DAY(S) BY PERSON*

Activity	Time in Day(s) by Person			
	Person A	Person B	Person C	Person D
Library Research	0	0	0	0
Hire Staff	0	0	0	0
Prepare Materials	0	0	0	0
Train Raters	0	2	0	0
Data Collection	0	0	0	0
Data Analysis	0	0	0	0
Dissemination (manuscripts, etc.)	0	0	0	0

*Note: All figures represent FTE for the grant year.

DELIVERING/SENDING APPLICATIONS TO THE COMPETITION MANAGER

Applications can be mailed or hand delivered, or submitted electronically but in either case must go to the Application Control Center at the address listed in the Application Transmittal Instructions. Delivering or sending the application to the competition manager in the program

office may prevent it from being logged in on time to the appropriate competition and may result in the application not being reviewed.

ALLOWED TRAVEL UNDER THESE PROJECTS

Travel is allowed if the travel specifically relates to the expressed goals of the project. Travel by students to further their education under the project's goals is also allowed. Travel to conferences is the travel item that is most likely to be questioned during negotiations. Such travel is sometimes allowed when it is for purposes of dissemination, when there will be results to be disseminated, and when it is clear that a conference presentation or workshop is an effective way of reaching a particular target group.

FUNDING OF APPROVED APPLICATIONS

It is often the case that the number of applications recommended for approval by the reviewers exceeds the dollars available for funding projects under a particular competition. When the panel reviews are completed for a particular competition, the individual reviewer scores and applications are ranked. The higher ranked, approved applications are funded first, and there are often lower ranked, approved applications that do not receive funding. Sometimes, one or two applications that are approved and fall next in rank order (after those projects selected for funding) are placed on hold. If dollars become available as a result of negotiations, or if a higher ranked applicant declines the award, the projects on hold may receive funding. If you receive a letter stating that you will not receive funding, then your project has neither been selected for funding nor placed on hold.

INDIRECT COST RATE

For competitions under the **Personnel Development to Improve Services and Results for Children with Disabilities** (84.325) program, the indirect cost rate may not exceed eight percent of the direct costs. Some or all of the grants awarded under this program have been designated training grants. The Education Department General Administrative Regulations (EDGAR) limit reimbursement of indirect costs under training grants to non-governmental grantees (subject to 34 CFR part 74). These grantees may recover indirect costs under training grants up to the grantee's actual indirect costs as determined by the grantee's negotiated indirect cost agreement or a maximum of 8% of a modified total direct costs, whichever is less.

Note: This limitation does not apply to State agencies, local governments or Federally-recognized Indian tribal governments. [§75.562(c)(2)]

Grantees charging indirect costs to an ED training grant at the 8% rate should have a negotiated rate with their *cognizant agency*, i.e., either the Federal agency from which it has received the most direct funding subject to indirect cost support, the particular agency specifically assigned cognizance by the Office of Management and Budget or the State agency that provides the most subgrant funds to the grantee.

Although applicants are not required to submit with their application a copy of their indirect cost agreement to claim the 8% rate for funding received in this program, they are required to have documentation available for audit that shows that their negotiated indirect cost rate is at least 8% [§75.563(d)].

Applicants should be aware that amounts representing the difference between the 8% rate and a greater indirect cost rate negotiated with a cognizant agency may **not** be charged to direct

cost categories, used to satisfy matching or cost-sharing requirements, or charged to another Federal award. [§75.563(c)(3)]

Please remember, that recent changes in the indirect costs calculations now removes the cost for student support; traineeships, stipends, tuition, from the direct cost line item. Students' costs are not subject to indirect cost rates.

ISSUES RAISED DURING DISCUSSIONS PRIOR TO AWARD

If your application is recommended for funding, discussions may be held prior to award to clarify technical or budget issues. These are issues that have been identified during panel and staff review. Generally, technical issues are minor issues that require clarification. Alternative approaches may be presented for your consideration, or you may be asked to provide additional information or rationale for something you have proposed to do. Sometimes, concerns are stated as "conditions". These are concerns that have been identified as so critical that the award cannot be made unless those conditions are met. Questions are also raised about the proposed budget during the discussion phase. Generally, budget issues are raised because there is inadequate justification or explanation of the particular budget item, or because the budget item does not seem critical to the successful completion of the project. A Federal project officer will present the issues to you and ask you to respond. If you do not understand the question, you should ask for clarification. In responding to discussion items you should provide any additional information or clarification requested. You may feel that an issue was addressed in the application. It may not, however, have been explained in enough detail to make it understood by reviewers, and more information should be provided. If you are asked to make changes that you feel could seriously affect the project's success, you may provide reasons for not making the changes, or provide alternative suggestions. Similarly, if proposed budget reductions will, in your opinion, seriously affect the proposed activities, you may want to explain why and provide additional justification for the proposed expenses. Your changes, explanations and alternative suggestions will be carefully evaluated by staff. In some instances, an applicant may again be contacted for additional information. An award cannot be made until all issues have been resolved and conditions met.

TREATING A PRIORITY AS TWO SEPARATE COMPETITIONS.

In the past, there have been problems in finding peer reviewers without conflicts of interest where applications are made by many entities throughout the country. The Standing Panel requirements also place additional constraints on the availability of reviewers. Therefore, The Department has determined that, for some discretionary priorities, applications may be ranked and selected for funding in two or more groups, which will ensure the availability of a much larger group of reviewers without conflicts of interest. This procedure will increase the quality, independence and fairness of the review process and will permit panel members to review applications under discretionary priorities to which they have also submitted applications.

SUCCESSFUL APPLICATIONS AND ESTIMATED/PROJECTED BUDGET AMOUNTS IN SUBSEQUENT YEARS

There is a maximum award amount specified for the priority/competitions included in this package. The Department rejects and does not consider an application that proposes a budget exceeding the maximum amount for any single budget period of 12 months for the priorities included in this package. Please refer to the priority description to determine the maximum award for any one particular competition. Since the yearly budgets for multi-year projects will be negotiated at the time of the initial award, applicants must include detailed budgets for each year of their proposed project. Generally, out-year funding levels most likely will not exceed 1st year budgets. However,

budget modifications during the negotiation process, the findings from the previous year, or needed changes in the study design can affect your budget requirements in subsequent years, but in no case will out-year budgets exceed the maximum award amount.

REQUIREMENT TO REPORT THE RESULTS OF GRANT ACTIVITIES

The Department shall, where appropriate, require recipients of all grants, contracts and cooperative agreements under Part D of the *Individuals with Disabilities Education Act* to prepare reports describing their procedures, findings, and other relevant information. The Department shall require their delivery to the Department of Education and other networks as The Department may determine appropriate. (20 U.S.C. 1482)

DIFFERENCE BETWEEN A COOPERATIVE AGREEMENT AND A GRANT

A cooperative agreement is similar to a grant in that its principal purpose is to accomplish a public purpose of support or stimulation as authorized by a Federal statute. It differs from a grant in the sense that in a cooperative agreement substantial involvement is anticipated between the executive agency (in this case the Department of Education) and the recipient during the performance of the contemplated activity.

DIFFERENCE BETWEEN AN ABSOLUTE PRIORITY, AN INVITATIONAL PRIORITY, AND A COMPETITIVE PRIORITY

An absolute priority is a priority that an applicant must address in order to receive an award. If an applicant does not address an absolute priority, their application will be returned as being non-responsive to the priority.

An invitational priority is a priority that reflects a particular interest of the Department, and an applicant is encouraged to address the invitational priority along with the required absolute priority. However, an applicant choosing to address an invitational priority will not receive any competitive preference over other applications.

A competitive priority is like an invitational priority in that it reflects a particular interest of the Department, and an applicant is encouraged to address the competitive priority along with the required absolute priority. A competitive priority may be handled in one of two ways:

1. an application may be awarded additional points depending on how effectively it addresses the competitive priority; or
2. an application that meets a competitive priority may be selected over an application of comparable merit that does not address the competitive priority. The type of competitive priority for a particular competition is always included in the *Federal Register* announcement.

APPENDIX

INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

This appendix applies to each program that is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on state and local processes for state and local government coordination and review of proposed federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the state's process under Executive Order 12372. Applicants proposing to perform activities in more than one state should immediately contact the Single Point of Contact for each of those states and follow the procedure established in each of those states under the Executive order. A listing containing the Single Point of Contact for each state is included in this appendix.

In states that have not established a process or chosen a program for review, state, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from state, areawide, regional and local entities must be mailed or hand-delivered by the date indicated in the actual application notice to the following address:

The Secretary
EO 12372—CFDA 84.325B [commenter must insert number—
including suffix letter, if any]
U.S. Department of Education, Room 7W301
400 Maryland Avenue, SW
Washington, DC 20202

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, D.C. time) on the date indicated in the actual application notice.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

STATE SINGLE POINTS OF CONTACT (SPOCs)

It is estimated that in 2008 the federal government will outlay \$449 billion in grants to state and local governments. Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on state and local processes for the coordination and review of proposed federal financial assistance and direct federal development. The order allows each state to designate an entity to perform this function. Below is the official list of those entities. For those states that have a home page for their designated entity, a direct link has been provided below by clicking on the state name.

States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within a state that does not have a SPOC, you may send application materials directly to a federal awarding agency

Contact information for federal agencies that award grants can be found in Appendix IV of the Catalog of Federal Domestic Assistance.

**NOTICE TO ALL APPLICANTS
ENSURING EQUITABLE ACCESS AND
APPLICATION FORMS AND INSTRUCTIONS**

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the *Improving America's Schools Act of 1994* (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **All applicants for new awards must include information in their applications to address this new provision in order to receive funding under this program.**

(If this program is a state-formula grant program, a state needs to provide this description only for projects or activities that it carries out with funds reserved for state-level uses. In addition, local school districts or other eligible applicants that apply to the state for funding need to provide this description in their applications to the state for funding. The state would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local

circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the federally-funded project or activity.

The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in Braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to

conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable

knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

- (1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special

education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

- (2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]
- (3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.
- (4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.
- (5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise

examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

- (6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked "Yes" for item 3 a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 3 a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

- (1) **Human Subjects Involvement and Characteristics:** Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age

range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

- (2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.
- (3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.
- (4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.
- (5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely

effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

- (6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.
- (7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.
2. For non-Federal funds or resources listed in Section B that are used to meet a cost-sharing or matching requirement or provided as a voluntary cost-sharing or matching commitment, you must include:
 - a. The specific costs or contributions by budget category;
 - b. The source of the costs or contributions; and

[Please review ED's general cost sharing and matching regulations, which include specific limitations, in 34 CFR 74.23, applicable to non-governmental entities, and 80.24, applicable to governments, and the applicable Office of Management and Budget (OMB) cost principles for your entity type regarding donations, capital assets, depreciation and use allowances. Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's Web site at:

www.ed.gov/fund/grant/apply/appforms/appforms.html.

DUNS NUMBER INSTRUCTIONS

D-U-N-S No.

Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling 1-800-333-0505 or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

www.dnb.com

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide.
